DIRECTOR

Krystle Jorczak is an experienced accounting leader with the ability to translate complex accounting information for various types of audiences. She has a proven ability to drive improvement and efficiency while maintaining high ethical standards and values, and creates an environment that encourages teamwork, professional development and accountability.

EXPERIENCE

Krystle's experience includes diverse roles where she managed system integrations, process improvement, financial analysis, accounting, and employee development. In her most recent role as a finance and accounting manager for a merchant solutions company, she was responsible for reconciliation and settlement of approximately \$250M in daily credit card sales in addition to managing an accounting team and serving as a consultant for accounting teams for multiple portfolios servicing 400,000+ merchant accounts. Krystle also possesses a strong background in managing job cost analysis for four companies and multiple multi-year/multi-million dollar projects; implementing enhancements to an accounting process, accounting methods, and within specific accounting software; and streamlining an inventory reconciliation process that improved accuracy and reconciliation time by over 50%.

Krystle understands the importance of developing team members to reach their full potential and takes the time to help them understand not only how to do the work, but why it is important. The clients of CFO Systems will benefit from her attention to detail, ability to improve and streamline processes that save money and time, and quickly resolve a wide variety of accounting challenges .
